Chief Justice Warren,

The other night, I heard something that was difficult to believe. This being the presents of a know Comunist sympathizer on your commission.

How in God"s did Norman Rurlick get on your commission. What really takes the cake is that I'm paying that son-of-a-bitch $100 a day.

As a taxer payer and loyal American, I demand the immediate discharge of this individual and an investigation to see how he got on the commission in the first place.

I want action and I want it fast!

Addiscusted and angery American

Henry J. Astengo
